SL620 Digital Still Camera

CAMERA FEATURES

12.2 mega -pixel

5x optical zoom

3.0" 230K TFT LCD display

Dual Image Stabilization. Integrating the best lens shifting mechanisms of Optical Image Stabilization (OIS) with the algorithms of Digital Image Stabilization (DIS) Dual Image Stabilization eliminates the blur caused by camera shake and delivers clear, crisp images every time, even under difficult lighting situation.

VGA@30fps Movie Recording: MJPEG format

Smart Auto Mode (Scene Recognition)

Perfect Portrait Technology

- **Face Detection** feature detects up to nine different faces. Automatically adjusts focus and brightness, this feature also senses and removes red-eye.
- **Smile Shot** helps you capture more smiles by shooting automatically when your subject laughs and smiles.
- **Blink Detection** prohibits you from taking a picture while the subject has his or her eyes closed.
- **Beauty shot** feature automatically identifies imperfections such as blemishes and dark spots on the face, and retouches them so that faces appear brighter and smooth. Different level settings control the amount of retouching that takes place.

Smart Album (Digital Contents Management)

Red-eye Fix algorithm automatically eliminates red-eye from your pictures.

White balance modes: Auto, Daylight, Cloudy, Tungsten, Fluorescent_H, Fluorescent_L, Custom

Scene modes: Night, children, landscape, text, close-up, sunset, dawn, backlight, fireworks, beach & snow, frame guide.

Multi Slide Show function lets you arrange pictures into a slide show, add music and active slide effects to bring out the emotion in your photos.

Movie recording: 2 hours maximum

Voice recording; 10 hours maximum
